EDUCATION

Master of Science in Data Analytics

Ghent University

2021-2024

Bachelor of Science in Business Engineering

Ghent University

2018 - 2023

SKILLS

- Problem-solving abilities
- Work ethic
- Perseverance
- Communication

ABOUT ME

As a young and ambitious student in data science, I am highly motivated to expand my skill set. My goal is to gain practical experience in the field of machine learning where I can apply my analytical skills to solve real-world problems.
I am eager learn new technologies aswell as new programming languages.

TECHNICAL SUMMARY

Programming languages:	Python, Java, R, Matlab, C++
Databases:	MySQL
Versioning systems:	Git (Github)
Operating systems:	Mac OS X, Linux (Kali)

RELEVANT COURSEWORK

Deep learning (python)
Social media and web analytics (R)
Machine learning (R)
Database systems (Sql)
Analytical customer relationship management (Python)
Big data (Sql, Pyspark)
Thesis:

EXPERIENCE

Intern at Euroclear Bank nv/SA - 5 Weeks - Data and market analytics team
Skills: SQL, PowerBI and Macro-economic principles

Everest analytics consultant - 3 months - Aiding Royal Belgian institute of natural sciences in a machine learning project

Creation and maintaining the website: www.pas-thuis.be

Tutoring statistics and maths - januari 2024 until present - High school senior math and university statistics

LANGUAGES

Dutch	Native Language
English	Fluent
French	Proficient
